# AVTEC Brings Web Development Training to Anchorage

## What will you learn?

### WEB DESIGN

- Functional, appealing Web sites to demonstrate a quality product or service

### DATABASE DESIGN

- Plan and build a database that will be reliable and stable

### PROJECT MANAGEMENT

- Learn the practices that will help you plan and deliver quality solutions

### SOFTWARE DEVELOPMENT

- What users see on the Web is just the tip of the iceberg. Learn the skills needed to make a Web application that works.

Looking for a great career?  
Looking for new skills?

A proven training program for Web development professionals is now available in Anchorage

Whether you need a full training program to get you started in the right direction or you are already an industry professional wanting to develop new skills, the Alaska Vocational Technical Center can provide the Web developer training that you need.

Call AVTEC Admissions at **1-800-478-5389** for more information.

Evening classes begin September 14, 2009.
